Collaboration Statement

- Team Members: Dakota Martinez and Rohan Tolia
  - All team members have reviewed and agreed upon the contributions listed below.
  - Dakota Martinez and Rohan Tolia contributed equally to the overall project, with each completing approximately 50% of the total work.

- Project Setup
  - Initialized all new variables within the project dictionaries
    - Dakota Martinez [100%]
  - Added end_of_mission_event function into subfunctions.py and define_experiment.py to the github repository
    - Rohan Tolia [100%]
  - Comments
    - Dakota Martinez [100%]
  - Function Descriptions
    - Rohan Tolia [100%]

- Subfunctions.py
  - Task 1: Helper Function motorW
    - Rohan Tolia [100%]
  - Task 3: rover_dynamics
    - Rohan Tolia [100%]
  - Task 4: mechpower
    - Dakota Martinez [100%]
  - Task 6: battenergy
    - Dakota Martinez [80%]
    - Rohan Tolia [20%]
  - Task 7: simulate_rover
    - Rohan Tolia [100%]

- Script Files
  - Task 2: Visualizing the Terrain
    - Dakota Martinez [100%]
  - Task 5: Visualizing Motor Efficiency
    - Dakota Martinez [100%]
  - Task 8: Rover Simulation
    - Rohan Tolia [100%]

- Write Up
  - Task 2: Dakota Martinez [100%]
  - Task 5: Dakota Martinez [100%]
  - Task 8: Rohan Tolia [100%]
  - Task 9: Rohan Tolia [100%]

- Consultation With Other Teams
    - We did not consult with any other teams while completing this project. We did consult TAs for help on Sub-function Battery Energy.
